## Software Engineer Intern Position

Dear Sir/Madam,

I am writing to express my interest in the Software Engineering Intern position at Pinterest.

With a strong interest in backend and especially DevOps work, I can be a great asset for the company. Having worked as a System Administrator in the past, I could likely solve many problems other Software Engineers would be unfamiliar with, including setting up servers and maintaining uniform dev environments, and with a strong interest in systems programming, I believe I may have an edge in spotting security issues and bugs in backend code.

I believe that this could make me a valuable asset to the company and any team that I may be a part of at Pinterest.

Sincerely,  
Andre Aw
